LESLIE JHAYNE C. DOMINGO

Third-Year BSIT Student | Research, Documentation & Project Coordination

Santiago City, Isabela, Philippines
Portfolio: leslie-domingo-portfolio.awaregrape130.chatgpt.site

PROFILE

Information technology student with academic project experience in requirements research, team coordination, system documentation, and application testing. Interested in database systems and systems analysis, with exposure to MySQL, Supabase, PHP, and Flutter through collaborative projects.

EDUCATION

Bachelor of Science in Information Technology | Northeastern College
Currently enrolled - Third Year

Senior High School, HUMSS | Quirino General High School | 2021-2023

ACADEMIC PROJECT EXPERIENCE

Tagpuan Cafe Information Management System (TCIMS)

Project Coordinator, Researcher & Documenter | PHP, MySQL, PDO, XAMPP

- Coordinated project tasks and team communication for a café information management system.
- Researched system requirements and supported requirements analysis and project planning.
- Prepared documentation covering system scope, requirements, and project information.

LifeLink - Blood Donation & Donor-Matching Mobile Application

Project Member | Flutter, Supabase

- Contributed research and documentation to a team project for blood donation and donor matching.
- Participated in application testing and troubleshooting, with attention to data accuracy.
- Gained exposure to database-backed records, authentication, and access-policy concepts.

SKILLS

Project support: Requirements research, project coordination, system documentation, team communication, application testing, and troubleshooting.

Technical exposure: MySQL, Supabase, PHP, PDO, XAMPP, Flutter; relational database fundamentals, authentication, and access-control concepts.

Course-based foundations: Networking, Cisco Packet Tracer, computer systems servicing, Azure architecture, and security and compliance concepts.

TRAINING & PROFESSIONAL DEVELOPMENT

Cisco Networking Academy | Sep 2026
Networking Basics; Getting Started with Cisco Packet Tracer - course completion certificates.

TESDA Online Program | Sep-Oct 2026
Five course completions: introduction to computer systems servicing, installation and configuration, maintenance, computer networks, and computer servers.

Microsoft Learn | Sep 2026
Four learning achievements: Azure architecture, security and compliance, core data concepts, and Microsoft Power Platform.

Seminars & webinars | Jul-Aug 2026
Four Northeastern College I.T. Week participation certificates; DOST Rizal and DICT Palawan technology webinars. All 17 learning records are available in the portfolio.
